Dear Georgia Healthcare Science Student,

Welcome to HomeTown Health University! We are pleased to offer your school access to online education courses through HTHU.net. This education is used by healthcare employees in hospitals and physician offices across the nation– and we hope that it serves to help you to build a solid foundation as a successful future healthcare professional in your field of choice. In order to build your personal portfolio over time, it is important that you use your unique user login each time you access the HTHU system. Your simple instructions for creating a user account are provided below.

Create a New Student Account

1. Visit www.hthu.net/georgiastudent
2. Click the blue “Register For Free” Button.
3. Create a User Account by following the Registration guidelines, below.
4. Before you can access a course, you will be prompted to complete a brief “User Orientation” to teach you how to navigate HTHU.net.

Begin Coursework

Login in to your student dashboard on www.hthu.net/georgiastudent/ and click on the course link assigned to you.

- Review the course “Overview” and “Learning Objectives.”
- Click on the “Digital Library” tab to download any notes or handouts for the course.
- It may be helpful to have earphones as most courses contain audio.
- When you are ready to begin, click the “Launch” tab.

Completion of Coursework

Following the completion of a course, there will be a quiz and evaluation to complete in order to demonstrate that you have met the Learning Outcomes for that topic. Every HTHU student will receive a printable certificate for completion of each course – and each student maintains a transcript on our system that can be printed as needed.

We recommend savings and/or printing a copy of each certificate for your own Student Portfolio as a record for yourself and future employers of the work that you have completed.
