Full steam ahead!
The postponement of ICD-10 is not a time to pause in preparing for the transition. Rather, it gives hospitals and providers the opportunity to spend one more year ensuring they are prepared for the change – training additional or new staff, reviewing complex code sets, and testing facility preparedness. This program is designed to provide a clear course to help improve coding practice now, and to prevent future drops in productivity when the change to ICD-10 does occur in October 2015.

Mark your calendars!
Sign up deadline for the program: January 31

The 2014-2015 ICD-10 Training Program Kickoff Webinar:
January 21, 2015 at 10am.
A recording of the kickoff will be made available for participants who miss the kickoff webinar.
Description
The HomeTown Health ICD-10 Training Program, “Charting a Course to Coding Success” includes a collaboration of industry experts who will provide hands on training, monthly webinars with a to-do list and group Q & A, live training with access to coding simulation technology, role-based education and progress tracking & support to ensure your hospital’s smooth transition to ICD-10 on October 1, 2015.

Physician ICD-10 Preparation Program online at http://hthu.net/physicianicd10

Pricing
$750/month for 12 months beginning January 1, 2015; to be billed on a monthly basis.

DISCLAIMER: All reasonable steps are taken to assist hospitals in meeting the October 1st, 2015 deadline with minimal impact to the operations of the hospital. Due to various external factors, HomeTown Health or its partners cannot be held reliable if the facility does not achieve ICD-10 compliance. These factors can be, but are not limited to: poor cooperation by hospital, technology vendor unprepared to make transition, lack of coder training, etc.
