LIVE & ONLINE

Healthcare Professional
Education and Training

www.hthu.net

Welcome to HomeTown Health University!

Here at HomeTown Health University (HTHU), we are purposefully dedicated to providing our learners with high quality, current, effective, and applicable education, to help meet the ever-changing and ever-growing educational needs of healthcare professionals. Our unique ability to offer live and online training that is industry-specific across a variety of scopes and topics, ensures educational success for all learners. HTHU's online courses are available 24/7/365 across a variety of platforms to ensure ease of access regardless of work schedule, time constraints or preferred device. This on-demand approach affords learners the opportunity to conveniently manage their educational needs; helping to bring their educational success to fruition.

Since 2005, HTHU has offered online healthcare training, combined with live training sessions, to help thousands of healthcare professionals reach their education goals. HTHU is currently serving over 20,000 students online alone throughout hospitals, physician offices, long term care facilities, and in partnership with associations, state departments, technical colleges and health science/STEM school programs. The courses offered by HTHU are developed by subject matter experts and best practice professionals within the field of study. Our HTHU education team reviews curriculum regularly to ensure learners are receiving education that is timely and relevant to current healthcare requirements. In addition to accredited courses, webinars, live workshops, and conferences, HTHU's comprehensive programs also offer on-site consultations throughout the year. So, whether it's maintaining your healthcare licensure or engaging in exciting new certifications, HTHU has something for you.

We invite you to discover the many accredited, healthcare-focused courses available on HomeTown Health University at www.hthu.net, and we encourage you to explore the other live training and programs available to your organization. We at HomeTown Health look forward to working with you in the near future.

Warmly,

Director of Education

CERTIFICATION PATHWAYS

The HTHU Certification Pathways for revenue cycle team members provides a range of training topics related to the key areas of patient access and billing. Pathways can be taken independently of each other, or combined together to achieve a full scope of revenue cycle training which encompasses multiple revenue cycle functions. Our stand-alone programs, such as FCC, Denials Management, or CHHS can be added into any pathway to meet the unique role your staff plays in your revenue cycle team. The benefit of utilizing the certification path is multi-fold. First, it helps to streamline enrollments so that your staff have less navigation in the system. Second, pathways are built to cover the key education areas applicable to positions. The Certification Pathways empower staff with credentials for their educational accomplishment, which can also help management to establish or support revenue cycle career ladders or incentive programs for career advancement. Some sample tools are also provided to School of Revenue Cycle Management subscribing facilities.

Patient Access Certification Path

Patient Access to Billing Specialist Path

Billing Certification Path

CERTIFICATE PROGRAMS & CERTIFICATIONS

Certification Contents

Patient Access Certification (PAC)

1. Introduction to Patient Access Certification
2. Your Role in the Revenue Cycle
3. HCAHPS: Key to Patient Experience Excellence
4. Patient Access Communications: Best Practices & Guidelines
5. Health Insurance Basics
6. Keys to Successful Collections
7. Patient Access: Forms, Figures, and Facts You Need to Know
8. Advance Beneficiary Notice (ABN)
9. Medicare Secondary Payer (MSP)
10. EMTALA LAW

Patient Access Specialist (PAS)

1. Introduction to Patient Access Specialist Certification
2. Dealing with the Difficult
3. Telephone Etiquette for Healthcare Professionals
4. CPT Codes 101: the Basic Rules and Guidelines
5. Medical Terminology I
6. Medical Terminology II
7. HIPAA: A Practical Guide
8. Improving Performance in Healthcare: Patient Access

Billing Certification Prerequisite

1. Introduction to Billing Prerequisite
2. Health Insurance Basics
3. Advance Beneficiary Notice (ABN)
4. Medicare Secondary Payer (MSP)
5. Medical Terminology I
6. Medical Terminology II
7. Your Role in the Revenue Cycle

Billing Certification

1. Introduction to Billing Certification
2. Introduction to Hospital Billing
3. Understanding and Utilizing the UB-04
4. Billing Basics – Patient Types
5. MUEs (Medically Unlikely Edits) Billing 101
6. 3 Day Window Rule
7. Medicare Consolidated Billing
8. Professional Business Communication 101
9. Improving Self-Pay Collections
10. The Big Three in Regulation

Billing Specialist Certification

1. Introduction to Billing Specialist Certification
2. Insurance Follow-up
3. Remittance Advice, Cash Posting & Credit Balances
4. Denial Management
5. Introduction to Modifiers
6. Introduction to Coding for the Business Office
7. Billing & Coding for IV Drug Administration
8. Evaluation and Management Services for Hospital Billing
9. Improving Financials: Maximizing Up-front and Back-end Patient Collections

Financial Counselor Certification (FCC)

1. Introduction to Financial Counselor Certification
2. Financial Counseling: Overview
3. Keys to Successful Collections
4. Financial Counseling: Financial Assistance Policy for Non-Profit Hospitals
5. Financial Counseling: Insurance Requirements
6. Financial Counseling: Funding Sources
7. Improving Financials: Maximizing Up-front and Back-end Patient Collections
8. Uncompensated Care for Financial Counselors
9. Financial Counseling: Legal Remedies

Certified Healthcare Hospitality Specialist (CHHS)

1. Introduction to Certified Healthcare Hospitality Specialist
2. Brand Ambassadors in Healthcare
3. HCAHPS: Key to Patient Experience Excellence
4. Dealing with the Difficult
5. Telephone Etiquette for Healthcare Professionals
6. Professional Business Communication 101
7. Professional Appearance & Language for Healthcare Professionals
8. HIPAA – A Practical Guide

Physician Office Patient Access Certification

1. Introduction to Physician Office Patient Access Certification
2. Patient Access Services 101
3. Health Insurance Basics
4. Patient Access Communications: Best Practices & Guidelines
5. Keys to Successful Collections
6. Scheduling, Referrals, & Precerts
7. HIPAA - A Practical Guide
8. HIPAA - Release of Information
9. Telephone Etiquette for Healthcare Professionals
10. Dealing with the Difficult

The knowledge that you gain from these trainings always stimulates ideas and learning which will either engage you to move forward in your position or drive you to better yourself and gain the additional knowledge to do so. Great opportunities to learn. – Angela W.

Certificate Programs

Denial Management Certificate

1. Denials, Reporting, and Charts
2. Denial Team and Populating a Repository
3. Denial Prevention, and Appeals
4. Denial Agencies, Contracts, and KPI

Foundations of Case Management Certificate Program

1. The Basics of Case Management and Utilization Review
2. Utilization Management and Compliance Impacts on Case Management
3. Psychosocial Assessments and the Discharge Plan vs. a Final Plan
4. Discharge Planning and Conditions of Participation
5. The Importance of a Utilization Review Committee
6. Medical Necessity Denials

HIPAA Certificate Program

1. HIPAA - A Practical Guide
2. HIPAA Privacy Awareness
3. HIPAA Security Rule

Foundations of Rural Hospital Revenue Cycle Management Certificate Program

1. The Basics
2. How Hospitals Get Paid
3. Patient Access
4. Case Management, Utilization Review and Care Coordination
5. Billing
6. Charge Capture and the CDM

Managed Care Professional Certificate Program (MCPC)

1. Managed Care History and the Basics
2. Medicaid Managed Care
3. The Management of Managed Care
4. Contract Compliance and Management
5. Defining and Accounting for Contractual Allowances
6. Utilizing Managed Care Claims Data Effectively for Improved Reimbursement

Remote Community Health Worker Certificate Program

1. The Case for Community Partnerships
2. Community Health Work and Paramedicine
3. Core Competencies for Community Health Worker
4. Role of Telehealth in Community

Rural Clinical Documentation Improvement (CDI) Specialist Certificate

1. CDI In the Outpatient Setting
2. CDI In the Outpatient Setting: Case Studies
3. Breaking Bad Habits that Result in Query Fatigue
4. CDI in the Inpatient Setting

Swing Bed Management Certificate Program

1. Laying the Groundwork
2. Setting the Standards
3. Expanding the Footprint
4. Medicine Best Practices
5. Therapy
6. What is IDT?

Rural Coding Certificate Program (RCC) – Beginner

1. Coding Specialties and Chart Types - Why Patient Status Matters
2. Using Your ICD-10-CM Code Book
3. Understanding the ICD-10-CM Coding Guidelines
4. Coding Introduction to CPT
5. Introduction to HCPCS Level II
6. Introduction to Modifiers
7. Diagnosis Code Selection in the Ancillary/Referred Outpatient Departments
8. Secondary Diagnosis and Impacts to Quality and Reimbursement
9. Regulations, Statutes, and Source Entities in Coding
10. Opening HIM to Student Prospects and New Coding Staff

Rural Coding Certificate Program (RCC) – Intermediate

1. Modifier Use and Complex Scenarios
2. The Alphabet Soup of Coding
3. Coding Integumentary System CPT Procedures
4. Compliant Anesthesia Coding and Billing
5. Coding Respiratory System CPT Procedures
6. Coding Digestive System CPT Procedures
7. Coding Ocular and Auditory CPT Procedures
8. Intermediate Coding Scenarios
9. Interdepartmental Collaboration with Coding
10. Inpatient Coding 101

Rural Coding Certificate Program (RCC) – Advanced

1. Fundamentals to ICD-10-PCS Coding – Under Construction, PCS Coding 101
2. Present on Admission and Hospital Acquired Conditions Impacts
3. Principle Diagnosis Selection in the Inpatient Setting
4. Secondary Code Diagnosis Selection in the Inpatient Setting
5. Complex CPT Coding Scenarios
6. Professional Inpatient and Observation Evaluation and Management Coding
7. ICD-10-PCS Use in Complex Scenarios
8. Building a Solid Plan for Appeals to Denials

Certificate Programs Coming Soon to HTHU:

CAH Operational Improvement: Competency Framework Certificate Program

1. The Need for Competency Framework in Rural Hospitals: Preparing for Improvement
2. Competency Collection: Standardizing Improvement
3. Competency Frameworks: Building & Refining
4. Implementing a Competency Framework: How to Use Tools for Improvement

CAH Financial Improvement: Competency Framework Certificate Program

1. Positions that Contribute to a Rural Hospital's Financial Success
2. Why a New Model is Needed for Rural Hospital Competencies
3. How to Use Job Analysis Questionnaires for Organizational Improvement
4. Building Competencies in the Business Office

HOSPITAL BOARD & LEADERSHIP PROGRAM

Large or small, rural or urban— the role of a hospital in its community is vital. A key to a hospital’s success lies greatly in the governance by its board and trustees, yet the needs of the rural organization often differ greatly. It is a role that demands active participation by members who understand the hospital environment and how to meet the unique challenges rural hospitals face. Trustees face legal, ethical, and regulatory decisions in a highly evolving industry. With new Georgia state-mandated training requirements, it is critical that hospitals provide initial and ongoing education to those that provide direction and oversight for the hospital, and for the administrative team who lead the organization.

With these needs in mind, HomeTown Health is pleased to offer a newly updated **Hospital Board & Leadership (HBL) Training Program** for rural hospitals. **HomeTown Health is pleased to announce that this curriculum was certified on 10.14.19 by the Georgia Rural Health Innovation Center at Mercer University School of Medicine as having satisfied the training requirements found in O.C.G.A. § 31-2-16.** The Hospital Board & Leadership (HBL) Training Program now meets both Georgia standards, as well as accreditation from IACET.org, allowing you to receive continuing education units that meet the highest international best practice ANSI/IACET standards.

Training that is Current, Compelling, and Compliant.

HomeTown Health has focused on meeting rural hospital needs in Georgia for 20 years and offers a network of subject matter experts who work with hospitals, like yours, every day. Together with these industry trainers, the Hospital Board & Leadership Training Program is crafted to provide up-to-date training on issues that your team faces. The HBL Program is built with the needs of adult learners in mind, ensuring the principles can be put into practice using the resources provided. In addition, the education team at HTHU.net will serve to manage the enrollment, tracking, and required reporting, from start to finish, to help your team become and remain compliant.

Topic	Course Title	Accreditation	CEUs
Pre-Requisite Requirements	Pre-Requisite training is provided online via moderated group sessions coordinated by HTH’s Board Training Lead. HomeTown Health’s GA Certified Hospital Board and Leadership Pre-Appointment Training which covers GRHIC Standard 1: Governance, Liability, and Accountability. In this course, we provide hospital board members and leadership with a foundation in the common legal duties owed by a board member, as well as the board responsibilities and activities required of board members. This webinar is available to hospitals that have registered with HomeTown Health for their Hospital Board and Leadership training. Completion of an online pre-test will be required of each registrant before admission into the webinar event. Instructions for accessing the pre-test will be sent to you after registration for this webinar event.

	Part 4: Creating Meaningful and Compliant Community Health Needs Assessments – NEW!	60 mins	0.1
Telehealth Operations & Projects	Innovations in Telehealth & Telemedicine	40 mins	0.1

ANNUAL EDUCATION PROGRAMS

With the ever-evolving landscape of rules and regulations in healthcare, annual education is an integral tool to educate and empower employees and supervisors. Annual education benefits both your employees and managers by providing them essential knowledge on major compliance areas required by agencies such as OSHA, DNV, and The Joint Commission. Annual education is also an essential part of protecting your facility and employees by providing them with the education to shape their job performance and ensure their compliance with all regulations and policies within your facility. Along those same lines, it empowers your staff leaders to hold their employees accountable for their behaviors in the workplace. Developed to match industry regulations and best practice performance guidelines, HTHU Annual Education Programs provide not only the education required for your facility but also provides tracking and reporting of staff completion for your facility's records. The HTHU Annual Education base program is divided into Clinical and Non-Clinical portions for employees, both ending with annual education evaluations.

Standard Annual Education: Clinical (8 hrs/0.8 CEUs)

1. Introduction to Annual Education
2. Corporate Compliance, Cybersecurity and Employee Injury
3. Environment of Care
4. Workplace Culture & Environment
5. Patient Rights
6. Age Specific Care
7. A Culture of Safety (Patient Safety)
8. Fall Prevention Education & Best Practices
9. Infection Control: The Basics
10. Infection Control: Personal Protective Equipment
11. Understanding Care Coordination & Discharge Planning
12. HIPAA: A Practical Guide
13. EMTALA Law – The Emergency Medical Treatment and Labor Act
14. Compassion Fatigue
15. Annual Education Evaluation

Standard Annual Education: Non-Clinical (7 hrs/0.7 CEUS)

1. Introduction to Annual Education
2. Corporate Compliance, Cybersecurity and Employee Injury
3. Environment of Care
4. Workplace Culture & Environment
5. Patient Rights
6. A Culture of Safety (Patient Safety)
7. Fall Prevention Education & Best Practices
8. Infection Control: The Basics
9. HIPAA: A Practical Guide
10. EMTALA: A Guide for Non-Clinical Employees
11. Brand Ambassador
12. Dealing with the Difficult
13. Compassion Fatigue
14. Annual Education Evaluation

Standard Annual Education: Long-Term Care (7 hrs/0.7 CEUs)

This annual education program helps fulfill your facility's commitment to providing education, monitoring, and oversight to ensure all employees, volunteers and medical staff members comply with the laws, standards and requirements governing its operations, and includes training to guide your employee actions and decisions. As a staff member of a long-term care facility, you are held accountable for knowledge of best practices and practical application in caring for elder and aged patients, including laws, regulations and matters of compliance which govern your facility and thus your performance. The following education program is designed to cover both compliance and care-giving information for long-term care staff members.

1. Introduction to Annual Education
2. Residents Rights: The Art of Caring
3. HIPAA: A Practical Guide
4. Customer Service and You
5. Preventing Elder Abuse: Helping Keep Residents Safe
6. Preventing Falls in long-term Care: Keeping Residents Safe
7. Infection Control: The Basics
8. Infection Control: Personal Protective Equipment
9. Preventing Healthcare-Associated infections in long-term Care
10. Preventing Bloodborne Infections in long-term Care: Preventing Transmission
11. Body Mechanics – Ergonomics
12. Lifting Safely to Prevent Injury
13. Environment of Care: Emergency Management
14. Annual Education Evaluation

Custom Annual Education Subscriptions

Facilities can customize and tailor these courses to meet the specific needs of their facilities and staff members by utilizing the courses above combined with facility-developed content, and other HTHU courses to create a Custom Annual Education Program. Custom Annual Education subscriptions can be expanded beyond the basic annual education program to include custom programs for New Hire Orientation or department-specific training.

SCHOOL OF QUALITY & COMPLIANCE

HTHU's School of Quality & Compliance is dedicated to training healthcare management and staff in aspects of healthcare requirements to meet compliance. The hospital professional can increase their knowledge and establish themselves as a more valuable employee by engaging in the certifications and courses that are available to them on HTHU.

Topic	Course Title	Course Length	CEUs
Clinical Practice Basics	Joint Commission National Patient Safety Goals for Hospitals	55 mins	0.1
	A Comprehensive Geriatric Assessment	50 mins	0.1
	Administering Medications	1 hr, 50 mins	0.2

SCHOOL OF LONG TERM CARE

The School of Long Term Care is designed to meet the needs of Long Term Care facilities and educate team members on areas of best practice, regulatory and industry compliance issues. The education can also be utilized by rural hospital staff with Swing Beds, or those providing care to a high level of senior or aging patients. In addition, HTHU has developed an Annual Education Program for Long Term Care facility staff to match industry regulations and best practice performance guidelines.

Some of the live meetings and webinars offered by HomeTown Health are accredited by the National Association of Long Term Care Administrator Boards. For additional information, contact NAB at 1444 I St., NW, Suite 700, Washington, DC 20005-2210, (202)712-9040, or www.nabweb.org. For more information on credits, please see the online course catalog or contact Evelyn Leadbetter at evelyn.leadbetter@hometownhealthonline.com.

RURAL SWING BED MANAGEMENT PROGRAM

Swing Bed Management, Compliance & Clinical Care

One of the challenges that small or rural hospitals face today is a shrinking inpatient census. While providing more resources at the local level, swing beds can strengthen relationships with tertiary facilities and can improve occupancy and productivity in addition to increasing facility revenue. It is important that hospital leadership understand the specific guidelines related to caring for swing bed patients to get the most out of their program. Comprehensive education and training are needed to address rural swing bed issues and provide the necessary tools for compliance, efficiency and quality, as well as support population health, wellness, and other services.

Topic	Course Title	Course Length	CEUs
Advancing Community Coordination	Performing Baseline Evaluations – NEW!	60 mins	1.0
	Community Services Needed for Viable Patient Care – NEW!	50 mins	1.0

SCHOOL OF POPULATION HEALTH

Rural hospitals face unique challenges in implementing Population Health initiatives – but also have inherent advantages for program success. Many hospitals have already been pursuing population health to some degree; however, whether an organization is just beginning the journey or if there is a broad, integrated population health focus, these courses will focus on building out new focus areas, leadership and staff training, and “putting the pieces together” in order to make the transformation towards population health successful in each unique rural community. The goal of the Population Health Program is to provide training, resources and support on rural population health across the hospital team, and to promote collaboration through the gathering and sharing of best practices and case studies of successful population health initiatives and innovations in rural hospitals.

Topic	Course Title	Course Length	CEUs
An Introduction to Population Health	Foundations of Population Health	60 mins	0.1
	Social Determinants of Health	45 mins	0.1

CUSTOM STUDENT AND EDUCATOR PROGRAM

Meeting the Needs of Facilities, Students and Teachers

HTHU's Custom Student & Educator Programs offer education to future healthcare workers and students in a variety of healthcare or health science education settings. Through online education hands-on training with our hospital and facility partners, students will build the knowledge necessary to pursue a career in this fast-paced and ever-changing industry. Together with educators, we build a custom program that meets the needs of both students and instructors. Students are able to build a transcript and print certificates of completed IACET accredited education to contribute to their portfolio, while broadening their knowledge base. Instructors and teachers are provided supplemental courses that support their curriculum, with online administrator access to manage students, and monthly usage and grade reports. The program also includes a custom dashboard for the school, and administrator training for instructors. For organizations with an existing Learning Management System in place, we can work with you to help author and upload new course material.

HTHU can work with students and educators in a variety of settings, such as:

- High School Health Science Programs
- College and Career Academies
- County Boards of Education
- Charter Schools/Cohorts
- Technical or Vocational Colleges
- STEM/STEAM Schools

What a valuable resource! And the best representational presentations of experienced medical field colleagues that have experience and education – you can feel confident when going back to your office to put what you have learned from these [trainings] into practice. Keep up the great work! – Wanda W.

HEALTHCARE SOLUTIONS FREE TRAINING CENTER

HTHU’s Healthcare Solutions Free Training Center is a great place to find solutions to many of your healthcare needs on www.hthu.net. The solutions you will learn more about in the free training center can help improve payer reimbursement, cut operating costs, improve bottom line results, improve long term financial viability, and aid in a number of other common challenges for providers. Many of the courses are provided by Business Partners in the HomeTown Health network: trusted service providers with experience and commitment to rural hospitals and facilities. Take advantage of the healthcare solutions provided in our free training center today!

Telehealth Reporting & Changes (March 25, 2020)	HCCS
Georgia Rural Health Innovation Center: An Introduction	GARHIC

SPECIAL TOPIC & MONTHLY WEBINARS

Regular Series and Special Topic Webinars

In the fast-paced, ever-changing world of healthcare, HTHU offers many special topic webinars to address these topics in a timely fashion through both regular monthly or quarterly series, or through Special Topic Webinars. If you are unable to attend the live webinars, recordings are located online for easy access. If there is a special topic that you would like to see covered by HomeTown Health, please contact a member of HTHU, and requests will be forwarded to the Webinar Planning Team for consideration and inclusion.

Monthly Georgia Provider Reimbursement Update: First Wednesday of each month

For Georgia HomeTown Health Member Hospitals; or by invitation.

For recordings or questions please contact hthtech@hometownhealthonline.com.

Monthly Medicare Update and Training: Second Wednesday of each month

For School of Revenue Cycle Subscribers/ Member Hospitals - all states; or by invitation.

Recordings listed in the School of Revenue Cycle Management. Contact hthtech@hometownhealthonline.com for details.

Quarterly Florida Rural Hospital Webinar: Dates available on hthu.net/florida

For all Florida Rural Hospital Members and CAH/FLEX Collaborative Hospitals.

Contact hthtech@hometownhealthonline.com.

Quarterly Iowa Rural Hospital Revenue Cycle & Reimbursement Webinars: Dates posted on program webpage

By invitation for Iowa hospital program participants. Recordings listed on the program dashboard.

Contact hthtech@hometownhealthonline.com for details.

Quarterly Hospital Chief Financial Officer Update: Dates announced via email

By Invitation and for hospitals members. Recordings listed in the School of Revenue Cycle Management and Board & Leadership Program. Contact hthtech@hometownhealthonline.com for details.

Quarterly Coding & CDI Webinars: Dates announced via email

By Invitation and for hospitals members. Recordings listed in the School of Coding & Documentation.

Contact hthtech@hometownhealthonline.com for details.

Quarterly Rural Health Clinics and Provider Based Clinics Webinars: Dates announced via email

By Invitation and for HomeTown Health Member Hospitals and School of Physician Office subscribers.

Recordings listed in the School of Physician Office Education. Contact hthtech@hometownhealthonline.com for details.

Healthcare Solutions Webinars presented by Business Partners

Business Partner webinars are available at no cost and are recorded and listed in the Healthcare Solutions Free Training Center. Please see the HomeTown Health event calendar for upcoming Business Partner webinars, or contact Meghan Williams at meghan.williams@hometownhealthonline.com.

Other Grant, Consortium, and Program Webinar Series

Various Webinar series are offered through grant programs and are listed on program specific dashboards. Looking for your program page? View the Grant Programs page on the online Course Catalog at www.hthu.net or contact hthtech@hometownhealthonline.com.

OTHER HOMETOWN HEALTH EDUCATION

HTHU excels in designing and delivering educational programs based on the needs of state groups, networks or other associations, whether funded by grants or otherwise. With accredited education that can be delivered via webinars, an online learning management system, live workshops and onsite consultations, we can custom build programming and project manage a variety of topic areas. We also perform thorough pre- and post-program assessments to ensure we are meeting the specific needs of participating hospitals.

Information about the following educational events can be found online at www.hometownhealthonline.com.

Annual Conferences & Workshops

HomeTown Health hosts three annual conferences during the Spring, Summer (Florida) and Fall for member hospitals and invited guests. Some education at the conferences can be IACET, ACHE, AHIMA, AAPC or NAB approved. A variety of live education is provided during the year for more specific hospital needs, including HR, Revenue Cycle/Revenue Integrity, Health Information Technology, CNO/Case Manager, Quality, Board Training, Critical Access, and others.

On-Site Hospital Training & Consultation

HomeTown Health staff performs hospital site-specific training and education in areas such as Strategic Planning, Visioning, Customer Service, Revenue Cycle, Chargemaster Evaluations, Town Hall moderation or presentations, and many other topics.

Executive Leadership Program

The HomeTown Health Executive Leadership Program is designed to equip emerging leadership candidates with the tools and skillsets necessary to become future Senior Executives, Senior Managers, & Directors. Develop personal management skills and a better understanding of the changing healthcare industry to help meet the need for strong leaders in healthcare. The Annual Executive Leadership program includes an event or webinar about once a month, beginning in January. The Program includes:

- **Personal Development**

Before you can effectively lead others, you need to be able to lead, and know, yourself. To help you stand out in your organization and in your industry as a leader, the program will begin with a discussion on individual leadership skills and goals for the program, and strategic career planning led by Jimmy Lewis.

- **Healthcare Industry Training**

Participation in various live HomeTown workshops, often outside of the primary area of current positions, to help participants gain cross-departmental knowledge of the many facets of healthcare.

Contact Sherri Ackerman at sherri.ackerman@hometownhealthonline.com for more information.

ACCREDITATION INFORMATION

The IACET CEU

HomeTown Health, LLC has been accredited as an Authorized Provider by the International Association for Continuing Education and Training (IACET). In obtaining this accreditation, HomeTown Health has demonstrated that it complies with the ANSI/IACET Standard which is recognized internationally as a standard of good practice for education. As a result of their Authorized Provider status, HomeTown Health offers IACET CEUs for its programs that qualify under the ANSI/IACET Standard.

Accredited Education from the International Association for Continuing Education & Training (IACET) is pre-approved by a number of professional organizations for credit. For reference, each 0.1 IACET continuing education unit (CEU) is the equivalent of 1 credit hour. View the full list of organizations online at www.iacet.org.

Other Accreditations

In addition, specific courses and live education offered by HomeTown Health and HTHU can be accepted by other organizations for continuing education credit, including but not limited to:

- **National Association of Long Term Care Administrator Board (NAB):** *See School of Long Term Care*
- **American College of Healthcare Executives (ACHE):** *Pre-approved education offerings available at various live events; See Hospital Board Governance Program.*
- **AAPC:** Some coding programs have been approved for continuing education units (CEUs) by AAPC. Please see the School of Coding and Documentation for details.
- **Continuing Medical Education (CME) Credits for Physicians, Nurses, Psychologists, Pharmacists, and Social Workers:** *HomeTown Health is pleased to be working with the University of South Alabama Office of Continuing Medical Education (USA OCME) to provide additional continuing medical education credits for select coursework as noted on individual courses. In support of improving patient care, these approved activities have been planned and implemented by Home Town Health, LLC and USA's College of Medicine Office of CME is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.*

Visit www.hthu.net/ceu/ for more information

CE Broker Information

If your organization uses CE Broker, HTHU is an approved provider for several boards/states. Please contact our team and provide your license number so that we can report your CEUs earned through HTHU education.

If you have questions about accreditation of education, or for credit acceptance from another organization, please contact Evelyn Leadbetter at evelyn.leadbetter@hometownhealthonline.com.

COMING SOON TO HTHU!
